## MINUTES OF THE NOVEMBER 3, 2010 DESIGN REVIEW BOARD

### 1. Work Session:

**CASE:** Winco  
1235 South Power (District 6)

**REQUEST:** Review of a 102,063 sq. ft. grocery store

### **DISCUSSION:**

Chair Craig Boswell:

- Agreed the wainscot should be masonry to protect it from damage from shopping carts, etc.
- Suggested the white columns should also have the masonry wainscot to protect their base

Boardmember Wendy LeSueur:

- Concerned with the landscaping at the northeast corner of the building
- Liked the way the new element wrapped the northeast corner of the building, but wondered if they could use some of the orange
- Liked the orange color

Boardmember Dan Maldonado:

- Would like a deeper landscape area at the southwest corner of the building, he also wanted it to wrap the corner
- Smaller trees or larger shrubs instead of the saguaros
- The drop off area should be an arc not squared off

Boardmember Andrew Call:

- Concerned with the landscaping in the retention area along Southern
- Could the cart corrals be flipped so the parking is shaded?

## MINUTES OF THE NOVEMBER 3, 2010 DESIGN REVIEW BOARD

**CASE:** Hassan Assisted Living Facility  
3558 East McDowell, (District 5)

**REQUEST:** Review of a 19,722 sq. ft. assisted living facility

### **DISCUSSION:**

Boardmember Wendy LeSueur:

- Likes the colors
- Could the eliminate the Chinese Elm
- A simple landscape design would be better

Boardmember Dan Maldonado:

- Could the screen wall at the building be staggered?
- There may be too many trees
- Three rows of trees in 17' won't allow enough room for the roots
- Take some plant material at the parking and use them along the edge
- Use the elm or ash out front for height
- The foundation base should be anchored in and accentuate the architecture of the building
- The landscaping should make a statement at the corner

Boardmember Andrew Call:

- The first building, across the street, is very nice

Chair Craig Boswell:

- Very nice project
